Subject line: Red Hat Named a Leader in 2025 Gartner® Magic Quadrant™ for Cloud-Native Application Platforms for the Second Consecutive Year

Body:

Hi {{first_name}},

I am excited to share that Red Hat was named a Leader for the second year in a row in the 2025 [Gartner® Magic Quadrant™ for Cloud-Native Application Platforms](#).

As a long-recognized key contributor and leader in the Kubernetes and cloud native open source communities, we believe this is continued validation of Red Hat OpenShift cloud services as a flexible, complete, and secure cloud-native application platform for AI-enabled applications and virtualized and containerized workloads across the hybrid cloud.

We believe this validates the strength of Red Hat OpenShift as a comprehensive application platform that empowers users to accelerate application development and deployment, offering both fully managed and self-managed options for consistent operations across any environment.

Download the Magic Quadrant [here](#).

Happy to share more details <in person/online> about what we think about our placements in both Magic Quadrant Reports and how Red Hat OpenShift can transform your application development journey. What day works best next week?

Cheers,

[Your name]
